Table 1: admin

Stores data for admin

S.I	Column_name	Datatype	Size	Constrain	Description
1	Admin_id	int	(11)	NOT NULL	Description not available
2	Admin_email	varchar	(30)	NOT NULL	Description not available
3	Admin_name	varchar	(30)	NOT NULL	Description not available
4	Admin_password	varchar	(100)	NOT NULL	Description not available

Table 2: blocked_users

Stores data for blocked users

S.I	Column_name	Datatype	Size	Constrain	Description
1	block_id	int	(11)	NOT NULL	Description not available
2	user_id	int	(11)	NOT NULL	Description not available
3	blocked_by	int	(11)	NOT NULL	Description not available
4	reason	text		NOT NULL	Description not available
5	blocked_at	timestamp		NOT NULL	Description not available

Table 3: blood_requests

Stores data for blood requests

S.I	Column_name	Datatype	Size	Constrain	Description
1	request_id	int	(11)	NOT NULL	Description not available
2	recipient_id	int	(11)	NOT NULL	Description not available
3	blood_group	enum			Description not available
4	request_units	int	(11)	NOT NULL	Description not available
5	when_need_bllood	timestamp			Description not available
6	hospital_name	varchar	(255)	DEFAULT	Description

				NULL	not available
7	doctor_name	varchar	(100)	DEFAULT NULL	Description not available
8	additional_notes	text		DEFAULT NULL	Description not available
9	latitude	decimal	(10,8)	NOT NULL	Description not available
10	longitude	decimal	(11,8)	NOT NULL	Description not available
11	request_time	timestamp		NOT NULL	Description not available
12	request_level	int	(11)	NOT NULL	Description not available
13	request_status	int	(11)	NOT NULL	Description not available

Table 4: donor_info

Stores data for donor info

S.I	Column_name	Datatype	Size	Constrain	Description
1	donor_info_id	int	(11)	NOT NULL	Description not available
2	user_id	int	(11)	NOT NULL	Description not available
3	weight	decimal	(5,2)	NOT NULL	Description not available
4	height	decimal	(5,2)	NOT NULL	Description not available
5	blood_pressure	varchar	(10)	DEFAULT NULL	Description not available
6	pulse_rate	int	(11)	DEFAULT NULL	Description not available
7	body_temperature	decimal	(4,2)	DEFAULT NULL	Description not available
8	hemoglobin_level	decimal	(4,2)	DEFAULT NULL	Description not available
9	cholesterol	decimal	(5,2)	DEFAULT NULL	Description not available

10	last_donation_date	date		DEFAULT NULL	Description not available
11	total_donations	int	(11)	DEFAULT 0	Description not available
12	chronic_diseases	text		DEFAULT NULL	Description not available
13	medications	text		DEFAULT NULL	Description not available
14	smoking_status	enum			Description not available
15	alcohol_consumption	enum			Description not available
16	travel_history	text		DEFAULT NULL	Description not available
17	tattoos_piercings	enum			Description not available
18	pregnancy_status	enum			Description not available
19	created_at	timestamp		NOT NULL	Description not available

Table 5: donor_notifications

Stores data for donor notifications

S.I	Column_name	Datatype	Size	Constrain	Description
1	donor_notifications_id	int	(11)	NOT NULL	Description not available
2	recipient_id	int	(11)	NOT NULL	Description not available
3	donor_id	int	(11)	NOT NULL	Description not available
4	request_id	int	(11)	NOT NULL	Description not available

| 5 | sent_at | timestamp | | NOT NULL | Description not available |
| 6 | donor_notifications_status | int | (11) | NOT NULL | Description not available |

Table 6: enquiry

Stores data for enquiry

S.I	Column_name	Datatype	Size	Constrain	Description
1	enquiry_id	int	(11)	NOT NULL	Description not available
2	enquirer_name	varchar	(30)	NOT NULL	Description not available
3	enquirer_email	varchar	(30)	NOT NULL	Description not available
4	enquirer_message	varchar	(200)	NOT NULL	Description not available
5	enquiry_time	timestamp		NOT NULL	Description not available
6	enquiry_status	int	(11)	NOT NULL	Description not available

Table 7: messages

Stores data for messages

S.I	Column_name	Datatype	Size	Constrain	Description
1	msg_id	int	(11)	NOT NULL	Description not available
2	sender_id	int	(11)	NOT NULL	Description not available
3	receiver_id	int	(11)	NOT NULL	Description not available
4	message	text		NOT NULL	Description not available
5	sent_at	timestamp		NOT NULL	Description not available

Table 8: reports

Stores data for reports

S.I	Column_name	Datatype	Size	Constrain	Description
1	report_id	int	(11)	NOT NULL	Description not available
2	reported_by	int	(11)	NOT NULL	Description not available
3	reported_user	int	(11)	NOT NULL	Description not available
4	reason	text		NOT NULL	Description not available
5	status	int	(11)	DEFAULT NULL	Description not available
6	created_at	timestamp		NOT NULL	Description not available

Table 9: testimonials

Stores data for testimonials

S.I	Column_name	Datatype	Size	Constrain	Description
1	testimonials_id	int	(11)	NOT NULL	Description not available
2	user_id	int	(11)	NOT NULL	Description not available
3	message	text		NOT NULL	Description not available
4	rating	int	(11)	DEFAULT NULL	Description not available
5	created_at	timestamp		NOT NULL	Description not available
6	testimonials_status	int	(11)	NOT NULL	Description not available

Table 10: users

Stores data for users

S.I	Column_name	Datatype	Size	Constrain	Description
1	user_id	int	(11)	NOT NULL	Description not available
2	name	varchar	(100)	NOT NULL	Description not available
3	user_gender	enum			Description not available
4	email	varchar	(100)	NOT NULL	Description not available
5	password	varchar	(255)	NOT NULL	Description

					not available
6	phone	varchar	(15)	NOT NULL	Description not available
7	blood_group	enum			Description not available
8	user_distance	int	(11)	NOT NULL	Description not available
9	availability_status	int	(11)	DEFAULT NULL	Description not available
10	latitude	decimal	(10,8)	NOT NULL	Description not available
11	longitude	decimal	(11,8)	NOT NULL	Description not available
12	created_at	timestamp		NOT NULL	Description not available
13	loc_updated	timestamp			Description not available
14	user_status	int	(11)	NOT NULL	Description not available
